RE: Boys Progress Group

Dear Parents/Carers

As a part of our commitment to driving forwards standards of academic achievement at St Monica's, we are launching a programme of support for some students. The selected students may not be making expected progress towards their targets or their attitude to learning is creating behaviour points, lates or detentions. An important priority in our school improvement plan to ensure all boys make good progress in line with national expectations. The work that we will carry out with these students will impact directly on this.

Your son is a pupil who would benefit from such intervention and I would like to include him in a six-week programme of additional support and intervention. The group will consist of 15 students from a range of year groups. The programme will provide them with a staff mentor, a series of one-to-one meetings with their mentor to identify key areas of improvement. The boys will be given individual goals that they should work towards. They will receive additional academic/pastoral support and guidance, and if appropriate, an appointment with a Career's Advisor to clarify and focus on possible post 16 options for them.

The overriding intention of the focus group is to provide bespoke intervention which will enable your child to secure better outcomes before we move into the next section of the academic year here at St Monica's.

If you are happy for your son to join the group please sign the reply slip below and return to school for Mr Shaw, Assistant Headteacher.

Mr I Shaw
Assistant Headteacher
